

Arrival of the second ATR at KIA January 2008

## A T R P R O F I L E :

The ATR series is a product of a joint venture between Alenia Aeronautica and European Aeronautic Defence and Space Company (EADS)

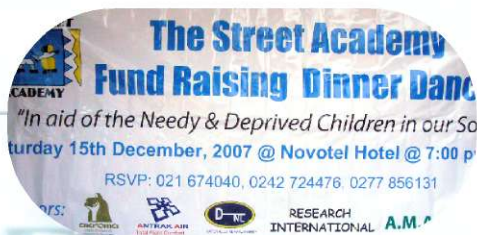

Alenia Aeronautica, a Finmeccanica Company, is the largest Italian aeronautic player which operates worldwide in the commercial, military aviation and unmanned aerial vehicles structures.

EADS is a global leader in aerospace, defense and related services. EADS Group includes: the aircraft manufacturer Airbus, the world's largest helicopter supplier Eurocopter and EADS Astrium, the European leader in space programmes from Ariane to Galileo

The ATR was introduced in 1985: Twenty years on, ATR has become the benchmark for regional turboprop aircraft with sales reaching 925 aircraft, with over 130 operators in more than 80 countries and some 15 million flying hours. Today, ATR is a pioneer in the regional transport field and every twenty seconds, an ATR takes off somewhere around the world. The ATR family is known for its versatility and capability to operate even in difficult environment and from short airfields. ATR is currently the most widespread regional aircraft family with more aircraft in service with more operators than any competitor.

## S O C I A L R E S P O N S I B I L I T Y P R O G R A M

Antrak Air particularly in the last 2 and half years have been actively involved in supporting welfare, social and educational programmes. For this issue we are featuring our sponsorship of The Street Academy (street children).

Sponsoring fund-raising in aid of needy and deprived children in our society.

Introducing Street kids to the aviation industry.

## C O M M E N T S B Y P A S S E N G E R S
