

No. 0001

Welcome to the premiere edition of Nsaa, the official mouth piece of Antrak Air. Nsaa highlight and gives a graphic representation of the company, its achievements and the industry as a whole.

Antrak Air began its operations four years ago. We have been healthy stocks to many who have reached the sky. To list a few; Her Excellency, the Most Honourable Michaelle Jean the Governor General of Canada, Paul Wolfowitz, the former President of the world bank, Otumfuo Osei Tutu II, Former Governor of Lagos States, Former President of the senate of Nigeria, Sir Chief Dr. Gabriel Osawura Igdinedion (Esama of Benin kingdom), Prof. Atta Mills, Mrs. Gloria Akuffo Minister of Aviation is just a few.

We also like to pride ourselves on the fact that we are the only solely owned private Ghanaian airline existence.

The ATR is a class leading aircraft based on modern technologies

Our corporate image is built around the desire to provide the best quality service from flying experience to our customers. We strive to be an airline of distinction and excellence, and can be judged by our achievements of success through meeting the needs and the satisfaction of customers beyond their expectation. Another Hallmark has been the reliability and the ability to respond to customers request for the special services short notice.

We use the ATR 42 aircraft a class leading aircraft based on modern technologies that are efficient and cost effective. We felt is necessary to use an aircraft which would be accepted everywhere not just in Africa. We have come a long way from our first leased aircraft operated for us by Viaggio Air of Bulgaria to owing two ATRs in a relatively short period.

We like to thank all our dear valued customers for their support over the years and also to restate our commitment to delivering quality international standard air transport services within Africa.
