

A NEW YEAR MESSAGE

From the Chairman

The New Year has now taken possession of the clock of time and we hail the duties and possibilities of the coming twelve months

months. I feel honored once again to recount the events that culminated in the performance of the Air line in 2009. As you are all aware, the year gave us splendid opportunities to prove to you, our valued customers, excellent services and total flight comfort. We also welcome the opportunities the New Year brings for us to prove to our cherished customers their worth through our excellent customer services. It is our earnest desire this year, to provide the best quality service and flying experience to our dear customers.

I also would like to take the opportunity to wish all our faithful customers and Ghanaians a happy New Year and to let them know that our commitment to job creation for the youth still holds in this year. As a member of the Council of State, I am more than ready to use the opportunity given me to champion this agenda. Additionally, one of my major concerns is the creation of conducive environment for the private sector to play a major role in the development of the domestic aviation industry in Ghana. We will also introduce more domestic flights to justify the huge investment needed to improve and upgrade the various domestic airports.

At Antrak, training cuts across all facets of the airline operations. Recently, the focus has been on Customer Service and a strategic direction in the area of human resource development. In 2010, Antrak Airline looks forward to serving you better by ensuring the high safety standard of our flights at all times.

On behalf of the entire management team and staff of Antrak Air, I will like to wish all our valued clients and stakeholders a fruitful new year.
